

# Prodrive Technologies

**At Prodrive Technologies we deliver industrial innovation-today. We develop high-end computing systems and low latency switching system where processing performance is key. We provide actuators and sensor interfaces, drivers and control units, tooling software, application software and precision mechanics. We create current sensor, gate drivers, inverters and converters and power suppliers. And there are more!**

Experience Prodrive's high performance computing, advanced motion control, cutting edge imaging, and innovative power conversion solutions for the semiconductor industry. Exceptional products with unsurpassed performance at the right cost from a company you will truly enjoy working with. We do everything in-house and we use the very latest process techniques, many of which we have developed by ourselves. We are among the fastest-growing technology companies in Europe. With a new factory in Suzhou China, we can support our Asian customers in better way.

We are happy to meet you at our exhibition stand where we will present our latest offerings for the semiconductor market.

Prodrive 技术公司提供今天的工业创新成果。我们开发高端的计算系统，低延迟的转换系统，在这些系统中，处理性能是关键。我们提供执行器和传感器接口、驱动和控制单元，工具软件，应用软件和精密机械结构单元。我们创造电流传感器、门驱动器、变频器、换流器、供电单元等，还有更多的产品！

欢迎体验Prodrive公司为半导体产业提供的高性能计算、运动控制、前沿的影像技术和创新的电源转换解决方案。杰出的产品，优越的性能，合理的价格，让客户合作非常愉快。我们自制所有部件，我们采用最新的工艺技术，其中许多技术是我们自行开发的。我们是欧洲增长最快的技术公司之一。

我们在中国的苏州开办了新工厂，更好地服务我们的亚洲客户。我们期待与您在展台相识，向您展示我们为半导体产业提供的最新产品。
